

Yokohama National University, Health Service Center

To maintain and promote the mental and physical well-being for all who work and study on campus, the Health Service Center conducts periodic medical checkups and follow-up care, as well as providing mental and physical health consultations and first aid to the sick and injured. Please do not hesitate to drop by to use our services.

Our Services

- Periodic medical checkups offered once a year without charge.
All the students are required to take the medical checkup. When the details are ready, we will inform you on the website or by other means.
- Issuing medical certificates.
We issue a medical certificate for students who have completed all the checkup items including chest X-ray.
- First aid to the sick and injured
- Mental and physical health consultations

Caution:

Students who have mild cold-like symptoms are requested to stay at home.
