Yokohama National University's Mission

Yokohama National University (YNU) five key principles are: Be Active, Be Innovative, Be Open, Be Global and Be Diverse. Faculty members from various fields such as humanities, social sciences, and engineering, gather on "One Campus." We carry out cutting-edge research, and accumulate education and research results with emphasis on social practice. By bringing together diverse academic and practical knowledge, and through open collaboration with stakeholders in various fields at home and abroad, including local governments, industry, and citizens, we aim to become a world-class research university. YNU strives to be a "knowledge-integrated university" that contributes to innovation, social and economic systems, and the development of science and technology.

Introduction

Yokohama National University (YNU) was established in 1949. Based on seventy years of history and tradition, YNU is highly internationalized, as it respects and strives to respond to the needs of society. The university is determined to provide practical knowledge to its students and to administer research and education with the aim of becoming a university that is more accessible to society and eagerly welcomes new challenges.

Located in the historically international city of Yokohama, YNU has been dedicated to a global perspective and has concluded International Exchange Agreements with 147 universities and institutions in 43 countries and regions.
