Yokohama National University's Mission

Yokohama National University (YNU) five key principles are: Be Active, Be Innovative, Be Open, Be Global and Be Diverse. Faculty members from various fields such as humanities, social sciences, and engineering, gather on "One Campus." We carry out cutting-edge research, and accumulate education and research results with emphasis on social practice. By bringing together diverse academic and practical knowledge, and through open collaboration with stakeholders in various fields at home and abroad, including local governments, industry, and citizens, we aim to become a world-class research university. YNU strives to be a "knowledge-integrated university" that contributes to innovation, social and economic systems, and the development of science and technology.
